Re: Building Extension (25' x 85' Approx.)

Nathan,

The following includes labor, material, and equipment to construct the following structure per our onsite visit together.

- **Mobilize GSE personnel and equipment.**
- **Supply/Install temporary chain link construction fencing.**
- **Demo the existing front parapet wall along the front of the existing building within the new building line dimensions. Remove bollards as needed to install spot footings for columns.**
- **Saw cut and remove/haul off concrete as noted on supplied sketch.**
- **Dowel into adjacent concrete w/ # 5 rebar dowels.**
- **Supply forms required to place/finish concrete.**
- **Supply/Place/Finish 3500 psi concrete into formed area.**
- **Supply/Place/Set anchor bolts required to construct primary steel.**
- **Design & Fabricate steel required for structure. All steel shall be primed painted.**
- **Columns & Primary Rafters shall be W8 x 21.**
- **Base plates shall be ½" in thickness.**
- **Includes all clips, bolts, fabrication, fasteners, and sealants.**
- **Roofline and walls shall receive PEMB vinyl backed insulation. The Open Bay area will not receive insulation.**
- **Includes all secondary framing. (Cees, Purlins, Wall girts, Strapping, Flashing, Etc.)**
- **Supply & Install (2) personnel doors within sidewall of structure. Location to be determined by owner. Doors shall be 3/0 7/0 w/ jamb, door, hardware.**

- Exterior west wall line shall receive EFIS (Exterior Insulation & Finish System) wall coating. Includes insulation, fasteners, adhesive, reinforced base coat, and finish coat. Color selection by owner. Color match to be close as possible. No exotics included.
- Supply & Install (3) Overhead Doors w/ glazing in three panels.
- Overhead doors shall have wall mounted commercial openers.

TOTAL \$ 121,343.00

NOTES:

1. The cross plane under the overhead doors may have a rise in concrete to ensure a level plane for the overhead door to rest in static condition. The plane may rise or change in elevation from door to door. The door line will remain constant, and adjustments shall be with the concrete.
2. It was noted verbally that the owner would remove certain portions of the existing buildings and should be noted contractually if the project is approved. Items such as existing overhead doors, R-Panel sheeting, etc. GSE will remove existing pipe bollards located outside existing building line where new columns will be installed.
3. Monthly progress payment net 30 days.
4. All permitting, changes due to a code review, and MEP not included within this quote.
5. All utility relocation by owner.
6. No Engineering Stamp included.

INSURANCE:

We will provide Workman's Compensation, Employers Liability, Public Liability and Automotive Coverage Insurance at our expense.

Should you have any questions, please advise.

Sincerely,
Gerald W. Stinson
GSE Construction Inc.
