County, Oklahoma

Identify the need or risk

A Bridge on N. 10th St W & 184th in Dist. 3 has been severely damaged by flood waters which has made it unsafe for use and has caused ingress and egress of emergency vehicles impossible. A safety risk exists for anyone attempting to use this bridge.

How does the proposed expenditure respond to the need or risk?

The installation of large pipes to replace the bridge will significantly improve the roadway and will mitigate problems that could otherwise arise in the future.
