August 28, 2023

Dear Mr. Havens:

Muskogee Board of County Commissioners is pleased to provide this letter of partnership and support to Muskogee County EMS for its community infrastructure planning initiative. This facility construction and mediation plan along the corridor of East Cincinnati and Spaulding will not only provide enhanced access to emergency services for the entire county, but will repurpose and restore an abandoned facility in a defined opportunity zone.

Muskogee County EMS is a leader in health services for the region. The organization is a vital mainstay in the communities as it provides more than emergency health services. Muskogee County EMS is a community partner, and critical to our emergency management services. Additionally, as an economic driver, Muskogee County EMS has become one of the major employers in the region. This expansion allows for continued growth of the operation and access to training in good paying high-demand occupations.

As partners, we are committed to continuous improvements and growth within the county that will promote the health and well-being of our communities. This project has the opportunity to demonstrate vitality and influence the revitalization of an economically disadvantaged area of Muskogee.

Again, it is our pleasure to support the community infrastructure improvement plan and proposal of Muskogee County EMS.

Sincerely,

Muskogee Board of County Commissioners

  
Kenny Payne, Chairman

  
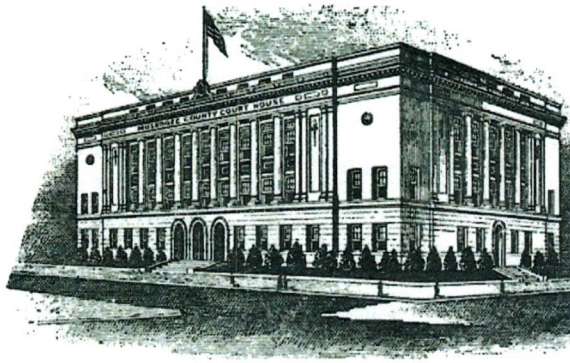

Ken Doke, Member

  
Keith Hyslop, Member

Dear Mr. Havens:

Muskogee County Clerk, Polly Irving, is pleased to provide this letter of partnership and support to Muskogee County EMS for its community infrastructure planning initiative. This facility construction and mediation plan along the corridor of East Cincinnati and Spaulding will not only provide enhanced access to emergency services for the entire county, but will repurpose and restore an abandoned facility in a defined opportunity zone.

Muskogee County EMS is a leader in health services for the region. The organization is a vital mainstay in the communities as it provides more than emergency health services. Muskogee County EMS is a community partner, and critical to our emergency management services. Additionally, as an economic driver, Muskogee County EMS has become one of the major employers in the region. This expansion allows for continued growth of the operation and access to training in good paying high-demand occupations.

As partners, we are committed to continuous improvements and growth within the county that will promote the health and well-being of our communities. This project has the opportunity to demonstrate vitality and influence the revitalization of an economically disadvantaged area of Muskogee.

Again, it is our pleasure to support the community infrastructure improvement plan and proposal of Muskogee County EMS.

Sincerely,  
  
Polly Irving, Muskogee County Clerk
