Sub: Emergency Purchase

Haskell Fire Department is asking for your help in the purchase of a 2007 Pierce Fire Engine. We are needing this equipment to help with our fire coverage of not only the Town of Haskell, but the surrounding communities in Muskogee County that we strive to protect. We feel that this is an opportunity that we cannot miss.

Haskell is a thriving community, and with the number of houses in the past years increasing we are in need of better ways to fight fire. This apparatus can be used in many different ways to help us with fire prevention, while making the work environment safer for our firefighters. To include the higher volume of traffic through Haskell this truck can also help with accidents, car fires, and help shut down a roadway and protect the first responders working an accident.

We thank you for your time and consideration,
Haskell Fire Department

Chief Caleb Brewer
