

Fiscal Recovery Funds  
Expenditure Documentation

Date 3/27/23

MUSKOGEE County, Oklahoma

Identify the need or risk

There is a lack of drainage near the intersection of Shawnee Bypass & 69 Highway, which is prohibiting the development of that busy intersection. This also creates a traffic hazard due to pooling & localized flooding.

How does the proposed expenditure respond to the need or risk?

This expenditure would improve the drainage at that intersection by increasing the flow & capacity, and includes two new drainage structures.

Expenditure Category Infrastructure

Expenditure: detail level 5.6 Clean Water: Stormwater

FAQ number (if applicable) \_\_\_\_\_

Estimated amount of expenditure \$60,000.00
