Identify the need or risk

Duncan Rd. from N 204th St. West to N 244th St. West in Haskell, Ok. in Dist. 3 is a major feeder road with school bus traffic, emergency vehicle access and local traffic. It is subject to frequent flooding which has caused damage to the road making it dangerous for travel during significant weather events.

How does the proposed expenditure respond to the need or risk?

An asphalt overlay on this road including roadbed, elevation, and flood control will help mitigate the problem thereby making it safer for individuals traveling on it.
