Identify the need or risk

The existing Low Water Bridge located on 104th and Wainwright Rd. in Dist. 1 flooded and washed out parts of the pipes during the most recent weather event. This has left a gaping hole in the roadbed which has caused an emergency issue of public safety for individuals traveling on this road.

How does the proposed expenditure respond to the need or risk?

Replacement of the existing Low Water drainage structure with half tanks and concrete will repair the currant emergency situation and mitigate future incidences.
