

Fiscal Recovery Funds
Expenditure Documentation

Date 5/8/2023

MUSKOGEE County, Oklahoma

Identify the need or risk

During persistent weather events, water backup and the absence of proper drainage on Gulick Street in Dist. 1, causes flooding and significant road damage. Ingress and egress for residents is affected and there is also a risk to the ability of emergency services reaching residents in these areas, during these times.

How does the proposed expenditure respond to the need or risk?

Repairs to this bridge will increase drainage and allow for quicker recovery from flooding events.
