DEQ Environmental Officer Grant

DEQ may provide funding to local law enforcement agencies to help start environmental crimes enforcement programs to investigate and clean illegal dump sites. These grants are given to curtail illegal dumping and are not to exceed \$50,000. They typically provide funding for the salary of one part-time Environmental Officer, equipment used to clean dumpsites, labor, and other costs associated with clean-ups. Grant recipients are required to submit monthly invoices, photos, and track certain metrics, such as number of dumps identified, and pounds of trash picked up.

Funding will be provided with preference to agencies providing complete information with their application, agencies that have already designated an environmental officer with previous enforcement experience, agencies which have not previously received funding (e.g. new programs), and those not already receiving funding for Environmental Officers from the Oklahoma Cooperative Circuit Engineering Districts Board. These programs are meant to become self-sustaining.

The DEQ recommends that each agency incorporate the following into their scope of work:

- Attend at least one of the following training opportunities:
 - DEQ's Environmental Law Enforcement Training
 - Keep Oklahoma Beautiful's Law Enforcement Workshop
- Go on at least one ride-along with an established program and with one of DEQ's Criminal Enforcement Officers
- Establish a tip line and/or a Facebook page to increase awareness and to gain community involvement

Municipal police departments requesting funding must demonstrate with their application that a jurisdictional agreement is in place with their County Sheriff that allows the police department to conduct environmental investigation and enforcement within the unincorporated county limits of the county.

Local agencies must make all efforts to acknowledge DEQ as a source of funding when describing the project to the public or media, in social media posts and on any signage or printed materials related to the project.

1st Year Participants

The maximum reimbursable amount of a funding agreement for first year participants is \$50,000. **Actual award may be less, depending on the needs of participant and amount of funding available to DEQ.** Up to \$30,000 of the total may be used for officer salary. The remainder may be used for equipment/supplies.

Subsequent Years

After the first year, funding agreements will be limited to a total of \$30,000. **Actual award may be less, depending on the needs of participant and amount of funding available to DEQ.** Up to \$25,000 may be used to pay the officer salary (includes time spent with inmate crews cleaning up dumps). The remainder may be used for equipment/supplies.

Environmental Improvement	
Questions	Answers
<p>a. Describe the need for this program.</p>	<p>Muskogee County has identified several areas in the county where individuals continue to dump refuse. Through previous DEQ grants, cameras have been utilized but due to damage/vandalism/theft no prosecution has been brought to date. The raw amount of refuse being transferred to the landfill has lessened but further work is needed.</p>
<p>b. Rank the amount of illegal dumping in your community on a scale from 1-10; one being small amounts/number of dumps; ten being large amounts/numbers of dumps. Explain.</p>	<p>I would place this currently at a high 5, low 6. Litter continues to be the largest contributor as far as time expended goes. Illegal dumps in the area of the landfill continues to be an issue. My belief is they dump illegally after the cost of using the landfill is learned. Still spending about 60% of my time in remediating litter. Cameras I have placed in the area of the landfill have been ineffective, but are memory card only cameras thus far. I would like to add several cellular based cameras in the area so images may be captured even with theft or destruction.</p>
<p>c. Does illegal dumping in your community affect quality of life (QOL) for your community members? Rank this on a scale from 1-10; One being low effects on QOL; ten being highly negative effects on QOL). Explain.</p>	<p>Dumping continues to be a large problem in creek beds, off bridges and in ditches leading to possible contamination of our waterways as well as into the water table. Many of the dumps consist of household trash including food stuffs. Animals of all types tear into the dumps to feed on the easy items. This leads to rodent populations increasing, increasing the chance for disease vectors to grow exponentially. Of course there are also esthetic considerations. 1 persons trash becomes several other peoples trash and the landscape is soon visually unappealing.</p>

<p>d. Who will be served by the program (municipalities, county, region, population estimate)?</p>	<p>Muskogee County is a primarily rural county with a population of approximately 72,000. Approximately 85% of the county is unincorporated or lacks the personnel/facilities to address the problem in any fashion. There are areas where residents will attempt to clean roadside litter to beautify their areas, but much still needs to be done. The financial assistance provided by the DEQ grants has allowed me to utilize jail trustee labor to more effectively deal with litter and also address those large scale dumps where entire households have been dumped along the roadside. Our county is also one that has numerous waterways crisscrossing the landscape. They then empty into increasingly larger waterways until ultimately emptying into the Arkansas River Navigation System. I firmly believe our partnership with DEQ has enabled us to create cleaner waterways and increase the aesthetic values of our county. Granted this seems to be occurring in baby steps not the large steps I had initially hoped but progress is being made and I would like to maintain our momentum.</p>

Public Outreach

Questions	Answers
i. Describe any public education aspects of your project/program. DEQ will prioritize applications that include an educational aspect.	Our program has partnered with schools in the area to provide volunteer hours as well as education on the need for our program. We also provide trash days at surrounding small towns to allow the proper placement of refuse.
j. Describe the public outreach plan for your community, such as news coverage, radio ads, flyers, posters, social media, and at what frequency. Please list your social media handles, if applicable.	The Commissioners are heavily involved in social media, specifically facebook. This allows the public to reach out to use when items are placed improperly, allowing us increase our reach. There are areas in the county that likely need assistance in cleaning that I am unaware of due to me being the only person actively seeking issues. The employees of the Commissioners also are effective at calling in problem areas as they come across them in their travels. Also the aforementioned community trash days, we have also had local newspaper articles published in regard to our program

Sustainability

Questions	Answers
k. Have you discussed this program with your prosecuting attorney(s), local judges, and court clerks, and do you have their support?	Yes, they all have been receptive to full prosecution to persons violating statutes in this regard as well as statutes relating to our safety as we work roadside.
l. Has a reward fund been established pursuant to 22 O.S. §1334 to help offset the cost of the program? If not, will it be set up before any grant funds are utilized?	Not at this time.
m. How long do you intend for the program to remain in place?	As long as the problem of dumping/littering exists. I expect it continue far beyond my tenure.

<p>n. What is your plan to become self-sufficient as an Environmental Officer program if DEQ funding becomes unavailable?</p>	<p>The Board of County Commissioners has been funding this program and states they will continue to as long as the funding is available. The DEQ grant(s) allow us to expand our reach with more efficient equipment.</p>
<p>o. How will benefits be measured? / How will you quantify the success of your project?</p>	<p>Size and number of dump sites will be largest indicator of benefit. This year our raw tonnage placed into the landfill has been lower than the previous year. Again the benefit has been small but progress is being made by these measurements.</p>

Scope of Work & Budget

<p>p. Please attach a detailed scope of work and budget for the entire fiscal year that considers officer wages/benefits, equipment purchases, projects, and recommended practices. Please include specifications and cost estimates for large pieces of equipment over \$5,000, such as a trailer. More detailed and itemized budgets will be prioritized.</p>

Additional Information

Questions	Answers
<p>q. Is there any other information that you would like to share?</p>	<p>The Sheriffs' Office and the 3 County Commissioners have been working well together over the last approximately 2 years I have been involved in the program. There have been issues periodically with obtaining suitable trustees' from the jail, but nothing that has hampered our ability to address dumping issues as they have arisen. I feel this program is vital to ensuring our county gets incrementally better and does not slip into an attitude of it doesn't matter where I dump things. I also believe residents are taking more pride in their areas and have more are taking time to clean up around them, encouraging their neighbors to be more efficient in there property.</p>
